ing means responsible for the recording of the stopped.

(57) Abstract:

COPYRIGHT: (C)1999,JPO

PROBLEM TO BE SOLVED: To perform the printing of a high quality image and productive printing to a disk-shaped recording medium.

SOLUTION: In the recorder, a CD is placed in a groove 1a of a table 1 stationary on a station by an air chuck section 5 of a supply and discharge section 3. By rotating the table 1, recording means 8, 9 arranged near the circumference of the table 1 performs image recording on the label face of the CD. After passing through the recording means 8, 9, the image detection section 17 checks if there is an abnormality in the image. When abnormality is found, recording by the record-
